BOTTLE HOLDER	(1) Included

## KYOTO 2000

KYOTO 2000 | 1304184 | OS

**VITTORIA**  
HOMETRAINER TIRE INCLUDED

Kyoto 2000 is a silent, smooth and easy-to-use trainer.

It is equipped with a magnetic resistance unit that is adjustable at 6 different levels.

It uses a roller made of elastomer polymer that guarantees quietness and smoothness.

The roller has an integrated key allowing to easily adjust to wheels of 26", 27", 28" and 29" diameter (with 700C tire).

The quick release allows easy entry and exit of the bicycle.

The foldable frame made of aluminum is extra strong and light at the same time. It takes less space when it is not in use and can be carried easily because of its incredibly light weight.

Not-Included: **RISER BLOCK** (1304185)

**RISER BLOCK** | 1304185 | OS

020

The Riser Block raises the front wheel to correct the position of the bike.

**TRY OUR ACTIVE CLOTHING & ACCESSORIES,  
THEY WILL MAKE TRAINING MUCH EASIER**
